4. G t t t r t t w t t L x c o

The screenshot shows the ICE-PHI Lexicon interface. The main window displays a list of entries with their corresponding grammatical information. The entry "#1:revenue+<N(com,sing)>" is highlighted. To the right, a summary table shows the following data:

Ignored:	0
Normal, ditto	100%
NPHD,N(com,sing)	1 100%
Total:	1 100%
